## U.S. EXPORTS OF BEEF BREEDING CATTLE

### JULY-DECEMBER AND ANNUAL 1959

U.S. exports of 6,730 beef breeding cattle during July-December 1959 were nearly 30 percent below January-June 1959. Total beef breeding cattle exports for all of 1959 totaled 16,201 head compared with 18,403 in 1958, a reduction of 12 percent. Declines in exports to Venezuela and Cuba accounted for a large proportion of the decline. Shipments to Mexico, the Dominican Republic, and Canada were also below last year.

In 1959, Brahman accounted for 52 percent of total exports, Hereford 27 percent, Santa Gertrudis 9 percent, and Aberdeen Angus 5 percent. These four breeds accounted for over 90 percent of the total exports.

Venezuela retained its position as the leading export market for beef breeding cattle by purchasing 41 percent of the shipments. Mexico ranked second taking 36 percent, while Canada took nearly 10 percent.

The leading exporting states were Texas, Florida, Montana, and New Mexico. Fifty-six percent of the shipments came from Texas, 19 percent from Florida, and 3 percent from both Montana and New Mexico. Three-fourths of all beef breeding cattle exports were supplied by Texas and Florida.

Beef cattle, breeding: Inspections for export from  
the United States by breed, 1959

<u>Breed</u>	<u>Head</u>
